LAUNCH KIT · FACT SHEET · 04 · PAYMENT INTEGRATION PLATFORM

Fuel & Fleet Payments

Every litre paid, authorised and reconciled in your ERP.

FOR

Banks · Fuel networks · Logistics companies

METRIC IT MOVES

Fleets and litres under control

THE CHALLENGE

Fuel spending is one of the largest operating costs of a fleet, yet payments often sit outside the ERP and the fleet systems, with manual reconciliation and weak controls.

WHAT THE KIT INCLUDES

- Digital fuel vouchers and payment authorisation
- Integration with ERP (including SAP) and POS at the pump
- Connection to the client's existing fleet and telemetry systems
- Limits by vehicle, driver, product or station
- Optional identity, location or biometric checks
- Automatic reconciliation and reporting

HOW IT WORKS

01 Allocation by vehicle or driver

02 Authorisation at the pump

03 Payment and settlement

04 Reconciliation in the ERP

WHAT YOU GAIN

- ✓ Fuel spending under control
- ✓ No manual reconciliation
- ✓ A new corporate product for the bank

WHAT YOU NEED TO START

- Fleet and spending rules
- ERP and fleet systems in use
- Participating fuel network
